

29th July 2021

Colibri Scientific Move To Deanway, Wilmslow

Dear Client,

Further to our letter on 18th May 21, informing you that Colibri will be relocating, we would like to update you on some more details.

- The building works are now complete, with the exception of the new lab furniture, which is due in 5 weeks.
- We formally receive the keys on Monday 2nd August 2021, when we will start installing the kitting stations.
- 'Transition Day' is Friday 13th August 2021. While we will keep stock back at Alderley Park for emergencies, **we will be unable to fulfil any expedited kit orders the week commencing 9th August.** We hope that this does not cause any inconvenience. The team will work over the weekend to ensure that we are fully operational in our new home on Monday 16th August.
- Sample freezers will be moved the following week, to ensure that there are no snags at Deanway. The move process has been thoroughly stress-tested, with 2 back-up systems, to give you absolute confidence that the temperature of your frozen and ambient samples will be unaffected.

Our address from Monday 13th August 2021 will be:

**Deanway 6,
Deanway Trading Estate,
Wilmslow Road,
Handforth,
Wilmslow
SK9 3HW**

Yours sincerely
