## ABOUT

Welcome to the first edition of our newsletter, The Hummingbird. The name has been chosen from a list of entries to a competition which we ran on our LinkedIn page.

The competition name and winner of £100 Amazon vouchers was Julie Mierzejewski from Marlborough Primary School. Congratulations Julie!

The Hummingbird will keep you informed on our evolving and growing business as well as share current industry hot topics.

Make sure you subscribe and follow us on LinkedIn and Twitter so you don't miss out on anything!

Please feel free to email [charles.stewart@colibriscientific.co.uk](mailto:charles.stewart@colibriscientific.co.uk) with any suggestions of what you would like to see in future editions.

# COLIBRI STAFF CHANGES

As our business grows, we are delighted to have welcomed some new members to the team.

Dr Karen Woods joined the Colibri Project Management team, in January. Karen is a PhD Biochemist and comes to us with a wealth of experience from large Pharma and CRO's. We are always looking for ways in which to make our services even more efficient and it is great to see Karen already adding value in this area.

Charlie Stewart joined us in February to fill the new position of Digital Marketing and Business Development Manager (snappy huh!). Charlie is largely home-based but being a local lad, we look forward to regular visits to the office, once the current government restrictions are at an end.

Last week, we said goodbye and good luck to our Stock Control coordinator, Jo Goodwin. While we are all sad to see Jo leave our team, she has made the decision to turn her hobby of producing amazing cupcakes into a business so our very best wishes go to her. We did manage to have a small, socially distant farewell lunch to thank Jo for all her great work.

We are very lucky to have appointed our replacement Stock Control Co-ordinator quickly. Alice Cross joined us this week and already it is clear that she will be an asset to the Colibri family. Alice has a degree in Occupation Therapy and developed the stock control systems in her previous role. Welcome to the team, Alice!

# WHITEPAPER

We are excited to announce the release of our new Whitepaper, written by our MD, Sue Keeler, detailing the risks posed to Clinical Samples Quality.

To read the full whitepaper please visit our news section [News - Colibri Scientific](#)

# LAB AUTOMATION

Join our very own Sue Keeler at the Laboratory Automation Virtual Event, May 19, 2021 <http://bit.ly/LabAuto21>. Sue will be presenting on How a LIMS can support the Clinical Sample Life Cycle in a Regulatory Environment.

This year's event includes the following topics:

- Microfluidic Technologies Enabling Automation
- High Throughput Biology
  - Antibody Discovery
- LIMS and Regulatory Compliance
